Define Problem Statements (Customer Problem Statement Template)

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A wellarticulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am (Customer)	An entrepreneur, freelancer, or startup founder seeking to draft legal documents without a legal background.

I'm trying to	Secure and generate accurate, customizable, and professional legal documents (such as NDAs, employment contracts, and lease agreements) quickly.

PS-1: Customer Problem Statement (LegalEase Project)

But	Drafting contracts manually is time-consuming, hiring legal counsel is expensive, and existing tools lack dynamic customization or proper legal formatting.
Because	I lack formal legal expertise and need an automated AI-powered tool that ensures legal structure, custom branding, and editable export formats (.PDF, .DOCX).
Which makes me feel	Overwhelmed by complex legal jargon, anxious about compliance/legal risks, and frustrated by high operational costs.
